I am a qualified and professional web developer with experience in designing websites. My skill set comprises both strong analytical and creative abilities, and I thrive in a team-oriented setting while being detail-oriented.

EXPERIENCE

FREELANCING

2022 - present

WEATHER FORECAST WEBSITE.

<https://savory-inky-patio.glitch.me/>

- This website offers real-time weather updates for any city worldwide, complete with the current day and date, along with the maximum and minimum temperatures.
- The website was developed using a combination of HTML, CSS, JavaScript, and API.

SPLIT BILL APP

<https://savory-inky-patio.glitch.me/>

- The website enables the calculation of the bill amount based on the number of individuals and the percentage of the gratuity.
- HTML/CSS/JS were utilized in its development.

WEBSITE OF A FLOWER SHOP.

<https://gusty-rapid-saguaro.glitch.me/>

- The website features a countdown timer displaying the time until the store opens, along with slides highlighting product information and pricing. Additionally, there's a Formspre integration enabling communication with the store.
- The website was developed using HTML/CSS/JS/GSAP.
